

## R3: Cascade Eddy Current module

### Description

- Distribution conveyor with material spreading module
- Magnetic head pulley in distribution conveyor (ferrous separation)
- Standard or High Intensity Eddy-Current separators, operating width 1,5m or 2,0m
- In between collection conveyor to forward material to 2nd Eddy Current separator
- Container-frame based construction for easy set-up, breakdown and transportation
- Totally galvanized construction and (partial) stainlesssteel coated machinery (IBA-proof!)
- TRS walkways connection system for easy mounting and de-mounting
- Container-frame based staircase
- All necessary railings

### Applications

- IBA (bottom ash) – waste – metals - shredder residues

### Dimensions

#### Transport:

2 truck loads

#### Operational:

15,0 x 7,5 x 7,5m (l x w x h)

### Weight

Ca. 16t

### Installed power

15kW
